Profile

Full-stack Developer with over 10 years, have experience in developing web apps and clean interfaces. Blending web development skills and good understanding of user experience to create digital products always seeking high conversion rate.

Knowledge of Solidity, JavaScript, Node, React and Java

Solid understanding of Blockchain fundamentals, Ethereum EVM and API RESTful.

Experience in deployment of ERC-20, ERC-721, ERC-1155 tokens and have great familiarity with DeFi, Dapps, NFTs and DAOs.

My biggest soft skill is that I'm very self-taught and very adaptable, but I really enjoy good teamwork.

Specialties: Web applications, User Experience, Database Modeling and Blockchain environment.

Experience

Full-Stack Software Developer | Freelancer | 2010 – present

In web3dev DAO Solidity bootcamp, I build a collection of NFTs and their respective page to mint using web3 libraries.

In another web3 project I built a DAO, with participation NFTs, treasury tokens and governance tokens. (ERC-20, ERC-1155 and ERC-721).

Web3 stack: Solidity, Smart Contracts, Ethereum EVM, Hardhat, Truffle, Ganache, Alchemy, Thirdweb, OpenZeppelin.

Web2 stack: JavaScript, Java, Node, React, NoSQL, PHP, MySQL, HTML, CSS

Design skills: Sketch, Figma, Affinity

Product Design | Web Development | Alphon Tecnologia | 2020 – 2023

As a Web Developer and Digital Strategist, I work on the Alphon Technology to build and maintain her main websites and Landing Pages in high performance with scores > (A++) and 95%. Also have experience in PPC marketing with Facebook Ads and Google Ads.
